Safety

Energy saving

Safety stirring beaker
suitable for hotplates
and magnetic stirrers
with round form

***Non-slipping rim with plane bottom
With strong wall and handle***

Safety stirring beaker

Energy saving

absolute **plane (flat) bottom** (Ø145mm and Ø165mm)
up to **30% faster / more effective** and therefore **more cost effective** heating / stirring performance

Safety

solid non-slipping bottom rim covering the plate
strong handle for easy and safe moving of the beaker
produced of **heat resistant Borosilicate glass 3.3**
the plane bottom ensures the **steady and silent** movement of the magnetic stirring bar

Order information:

Safety stirring beaker

with handle, 2000ml, plane bottom and solid non-slipping bottom rim, Borosilicate glass 3.3

Order No.: Ø145mm 5 500 314
 Ø165mm 5 500 316

The stirring beakers match with all common hotplates and magnetic stirrers with round stirring plate Ø135/145 mm and Ø165 mm (such as from Witeg®, IKA®, Heidolph®, CAT® etc.)

Matching magnetic stirrer with heating, round-type

up to 380°C, 80-1.500rpm, Ø135mm, aluminium pressure casting ceramic-coated, CE-certified (further technical data see Wisd-catalogue)

Order No.: ceramic-coated
